The Greater New York Dental Meeting welcomes participants from all over the world. The GNDM has no registration fee and over 42,000 participants of national and international origin. This dental conference provides continuing education in the form of different class offerings, from workshops to half and all day lectures. Exhibitors at the GNYDM have an expanded and friendly space to show their products and educate dentists and their staff about new technology in dentistry. At recent GNYDM exhibits, there were over 1,500 technological exhibitors.

Lecture and workshop programs offered at the Greater New York Dental Meeting are informative on the newest form of technique and technology in dental science and practice dental practice structure. Workshops provide continuing education in Endodontics, aesthetics, dental implants, dental hygiene, and laser technology.

Exhibitors at the Greater New York Dental Conference have the benefit of a 4 day exhibition schedule. Exhibitors benefit from the over 1,500 international participants in the dental conference, therefore expanding their exposure to other countries and increasing potential contacts and sales.
