## Visiting A NOT-SO-TOURISTY New York City

By: Jayme McNiff Spicciatie, GNYDM

**FROM CHINATOWN TO BUSHWICK WITH A STOP OFF IN ASTORIA, EAT YOUR HEART OUT AT ICONIC BAKERIES AND TAKE A RIDE ON THE STATEN ISLAND FERRY.**

See the New York City skyline from a new perspective. With all that New York City has to offer, get out, and explore after the exhibit floor closes!

Take a walk from the Javits center over to Hudson Yards and experience the Vessel, a spiral staircase with sweeping views of NYC and the river. This extraordinary and interactive new landmark is a must-see! Afterward, stopover at the shops featuring over 100 retail luxury stores.

You've heard about all the mainstream places like Rockefeller Center and the Christmas window displays or Macy's in Herald Square; but you've been attending the Largest Dental Show for years now, why not check out these Pop-up Holiday Markets:

- Grand Holiday Bazaar-100 West 77th Street
- Columbus Circle Holiday Market-59th Street & Central Park West
- Union Square Holiday Market-Union Square Park Between 14th Street and 17th Street
- Astoria Market's Holiday Shopping-Bohemian Hall and Beer Garden at 29-19 24th Avenue (Astoria)

### FEATURES

**FREE 5 MINUTE HEARING TEST MOBILE VAN.....PG 14**

**PUBLIC HEALTH CONFERENCE.....PG 17**

### ENTER THE GNYDM RAFFLE TO WIN A PRIZE!

Buy a Wednesday, December 4<sup>th</sup> Educational Course to be entered to **WIN** one of (8) \$250 gift certificates towards Exhibit Floor purchases. Drawing is held at 1:00 PM and 4:45 PM at the Social Media Café Booth #5434.

- Raffle tickets will be given out with any Wednesday course purchase (Maximum 2 raffle tickets per person)
- Gift certificate will be valid until February 28, 2020
- Includes CE Bundle Courses
- Must be present to win

**GNYDM RAFFLE TO WIN A PRIZE.....PG 22**

Thinking ahead. Focused on life.

Connects to any Bluetooth compatible phone or tablet

NEW YORK (CONT.)

Visit Canal Street in Chinatown and get ready to haggle. This cash-only wonder is for the true bargain shopper who will be heading home with gifts for the whole family. Hold your bags close as this area does get crowded.

Then stop off at Chinatown's Original Ice Cream Factory with incredible flavors like Zen Butter, Durian, and Black Sesame (65 Bayard Street). Over the sweets, pop into the Peking Duck House (28 Mott Street), Hwa Yuan (42 E. Broadway), or Jing Fong (20 Elizabeth Street) for dinner or grab a tea at Ten Ren's Tea Time (73 Mott Street).

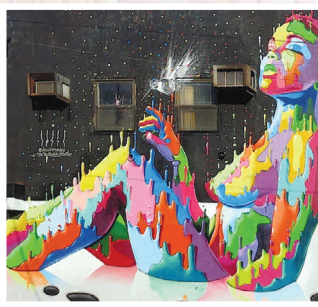

Grab a drink at Rolf's Restaurant with their festive Eggnog or German Beer; at this iconic restaurant, you can nosh on delicious German food while you gaze up at the magical Christmas decorations that surround you. Side Note: this place is so busy they keep their Christmas decorations up through May, so be prepared to wait on line to get into the standing room only bar area. Rolf's is located at 281 Third Avenue.

Magnolia Bakery or Junior's Restaurant & Bakery. Both are located only in NYC, and even though you can order their one of a kind Cupcakes, Bread Pudding, and cheesecakes online, respectively, it's not the same as fresh from the oven! With numerous locations, there should be one close to your hotel. Life is short, eat dessert first.

Eat Pizza! Enough Said.

Are you looking for something else off the beaten path? Check out Bushwick Street Art attracting artists from around the world with graffiti art displayed throughout the neighborhood, look up The Bushwick Collective for more details. While walking around Bushwick, warm up at the many eclectic restaurants, bars, coffee shops and lounges that have since popped up in this artistic community. To get there, knock another line off your bucket list and take the Subway, the L to Jefferson Street.

While mostly everyone else is headed to Radio City Music Hall to see the Rockettes during the holiday season, you'll be whisked away by the most talented musicians and dancers from around the world at the Lincoln Center for the Performing Arts. It consists of the city's finest performing arts venues, including the world-renowned Metropolitan Opera House. \*Bonus: a lot of the events are free or under \$50; visit their website: www.lincolncenter.org.

Of Course, our favorite, non-tourist event, is the Wednesday Night Happening at the New York Marriot Marquis Hotel, Westside Ballroom, on the Fifth Floor. It's from 6:30 PM - 9:00 PM, and you guessed it, it's Wednesday Night. The event is free to our attendees and exhibitors; it includes a buffet, cash bar, DJ, and dancing. The Wednesday Night Happening is our last hurrah, our Goodbye, and our Thank You for attending.

Don't Miss It! The fine print: All are welcome, a Badge is required, no registration is done onsite at the Marriott Hotel, and children under 18 will not be permitted.

There you have it. You're ready to see New York as a New Yorker. Disclaimer: the GNYDM is responsible for the amazing and unforgettable time you will have while visiting.

**We look forward to educating, entertaining, and welcoming you back in 2020!**

# What They Didn't Teach Us in Dental School: Finding Pain Relief with SurgiTel

**"I** think it's very important for students and residents to consider ergonomic tools during their training, this is why: shortly after school and residency training, I started getting neck pain and headaches. For a while, I just took Ibuprofen, and it went away. However, I started realizing that the frequency and intensity of my pain started to increase."

After about one year of this, I told myself that it was enough. I'm young why am I suffering? I have to practice dentistry for at least another 20 years. I started reading about ergonomics and muscle strengthening exercises. Then I asked my dental friends about it to see if they were going through this same kind of thing. I started going to the chiropractor three times a week. It helped, but if I had one rough day at work, I started feeling pain again.

One of my colleagues said that it might be the loupes I'm using. So, I saw his and realized that the angle of declination of my loupes from dental school was all

wrong!!! I can't believe the reps would measure us like this. My friend told me to check out SurgiTel and told me how awesome his rep is. Fast forward a year and a half later, I contacted SurgiTel, and my life has never been the same!

My rep is awesome and very patient; he explained to me all the different specifications about the loupes and how I was supposed to be measured. He was very flexible with time and spent a lot of time at my office to measure me accurately. Whenever I had a question or concern, he responds to my texts and calls right away, and most importantly, he is true to his word [My SurgiTel rep] goes out of his way to make sure that the customer is happy. I am very satisfied. And my neck and ergonomics are much better, as well. I would highly recommend

**SurgiTel**

## FREE CONTINUING EDUCATION VAULT!

The Greater New York Dental Meeting now offers a **FREE** storage site for all of your educational documents from any worldwide Dental event. Store all of your important documents in a secure and convenient location. Never again misplace your valuable CE documents or proof of attendance certificates. All Dental professionals are invited to utilize this confidential password protected site. Attendance at the Greater New York Dental Meeting is NOT required to access this free service nor is membership in any association required. Register today to create a new account or login as a returning user to upload and store your documents in your own private vault. Simply return to your account anytime and print out your documents when you need to provide copies to your licensing entity.

To register, please visit our website: [www.gnydm.com](http://www.gnydm.com)

## GNYDM 2019 IMPLANT POSTER COMPETITION

### The winners of the 2019 GNYDM IMPLANT POSTER AWARD FOR EXCELLENCE:

The GNYDM Implant Poster awards were presented at the International Reception on Sunday. Besides a beautiful certificate, monetary awards were also given, thanks to the generosity from the GNYDM.

If you'd like to present a poster presentation and have it considered in the 2020 GNYDM Poster Competition, please visit the Greater New York Dental Meeting website for updates and upcoming details at [www.GNYDM.com](http://www.GNYDM.com). Everyone is welcome to submit a poster even if you are not a dentist!

**Drs. Michael L. Cali and Clifford Salm, judges of the World Implant EXPO Scientific Poster Session, present awards to Savitha Bathini, Assma Nassef, Raed Kadi.**

## Introduction of Tri Auto ZX2

by Dr. Denny Fang

**F**or the past twenty years, we have seen endodontic technology advancing at an exponential rate. As we enter the artificial intelligence era, technology will undeniably replace the traditional manual skills and expertise requirement.

Today's newly developed dental equipment assists dentists in performing more efficient, predictable, productive, and successful dental treatment than ever before. Since 1916, J. MORITA has been a pioneer in the invention of dental technology. Root ZX, Tri Auto ZX, TwinPower Turbine Handpieces, and the 3D Accutomo CBCT are just a few highly reputable and reliable J. MORITA products used by thousands of dentists worldwide.

Tri Auto ZX2, the second generation of the Tri Auto ZX series, has recently been introduced in the dental market and has gained enormous popularity and positive feedback amongst our dental colleagues. In addition to the popular functions of the original model, Auto Start/Stop, Optimum Torque Reverse, Auto Apical Reverse, Auto Apical Slow Down, and Auto Torque Slow Down, Tri Auto ZX2 now comes with two unprecedented innovations: OGP (Optimum Glide Path) and OAS (Optimum Apical Stop). The OGP motion is the combination of the 'Balanced Force and 'Watch Winding' movements. Incorporating the stainless steel Mani SuperFile,® ISO sizes 10 and 15, or any NiTi glidepath/pathfinder files, OGP can minimize, or even eliminate, the need for hand filing to establish canal patency and the canal working length. Ledging, transporting of the canals, and file separation are our biggest fears in modern endodontics. If we can master all 11 safety functions of the Tri Auto ZX2, endodontic mishaps will be a concern of the past.

This endo motor and apex locator combination unit is ergonomically compact and lightweight. Just owning one unit is sufficient, as it is portable enough to carry from office to office and from room to room. Tri Auto ZX2 is also great for traveling and has enough battery power for a week-long humanitarian dental camp without recharging.

Titbits of advice from Dr. Fang: Tri Auto ZX2 is like a smartphone with app functions that are way too advanced for new users to handle. It is recommended to turn off all smart functions and begin using Tri Auto ZX2 as a basic torque-controlled, endo-meter integrated motor. Then, gradually turn on each unique function and tune the levels as you learn to control the unit. With the capability of adjusting Tri Auto ZX2's unique smart functions, sooner or later, you will fall in love with this motor and enjoy doing endo again.

**3M** **Booth(s):4019**

Phone: (800) 634-2249

Website: www.3m.com

**Product: 3M™ Filtek™ Universal Restorative**

**Description:** Just 8 designer shades plus an Extra White (XW) cover the 19 VITA classification and bleach shades.Plus, the shades have a universal opacity that meets most clinical needs. NaturalMatch technology (made up of nanofillers, proprietary low-stress monomers and pigments) enables one-shade esthetics to blend more naturally with dentition. Fluorescent pigments enhance the lifelike appearance. 3M filler technology allows for increased radiopacity

**3Shape** **Booth(s): 2626**

Phone: (908) 867-0144

Website: www.3shape.com

**Product: TRIOS 4 MOVE +****Description:** 3Shape TRIOS 4 intraoral scanner

3Shape TRIOS 4 is the world's first intraoral scanner with timely detection aid of both possible surface and interproximal caries in a single scanner. Now with the release of the brand-new TRIOS 4, intraoral scanners will no longer be used only for restorative and orthodontic applications. TRIOS 4 can aid in the early-detection of surface caries as well as including a transluminescence smart tip that can identify possible interproximal caries; diagnostic applications that do not emit radiation. "The wireless TRIOS 4 delivers its groundbreaking caries innovation with no compromise to ergonomics or increase in the size and weight of the scanner. 3Shape TRIOS MOVE+ 3Shape TRIOS MOVE+ is one of three hardware setup options for the TRIOS intraoral scanner. TRIOS MOVE+ now features a larger 15.6" touchscreen attached to an arm and elegant, easy-to-move stand with a mounted PC. Dentists can easily move and position the TRIOS MOVE+ as well as use its touchscreen as a canvas to design and discuss treatments with patients. TRIOS MOVE+ helps to drive patient involvement and case acceptance in conjunction with 3Shape Excitement Apps like TRIOS Treatment Simulator and TRIOS Smile Design.

**4Smile** **Booth(s): 2307**

Phone: (800) 500-4506

Website: www.4smile.com

**Product: 4Smile Intelligent Practice System**

**Description:** 4Smile.com combines all the digital tools that dental practices need to attract and retain more patients. Patients can live chat, find the best dentist nearby with over 15+ customizable filters, get special discounts, and see their dental progress in a password protected portal. For dentists, we make your online booking process and re-scheduling easy, automatically send notice reminders, as well as help you save money with our members only supply discount club. 4Smile was built to take the stress out of running a practice and make the dental process easy for patients.

**A-dec Inc.** **Booth(s): 2800**

Phone: (503) 537-2889

Website: www.a-dec.com

**Product: New A-dec 500 & A-dec 500**

**Description:** In a world of complex technology and noise, we bring you intelligent simplicity and inflatable peace of mind. Designed to function holistically and intuitively, the new A-dec 500 quietly slips into the background, reacting to your every move, without pause. Experience the next level A-dec 500.

**AMD LASERS** **Booth(s): 900**

Phone: (702) 809-3117

Website: www.AMDLASERS.COM

**Product: The Monet**

**Description:** AMD Lasers is known for their cutting-edge technological advancements in the dental market and we're thrilled to have developed a new benchmark curing light. The Monet is the first LASER curing light created for the everyday dentist in their practice. Every Monet is designed with a sleek copper finish and silicon grip made for both comfort and durability. Monet's 450um blue light laser cures most composite shades within 3 seconds at a 5-mm depth, giving it an advantage over the top LED curing lights on the market today. Since this curing laser is powered by a rechargeable ion lithium battery, each unit will also come with a corded adapter that plugs directly into the wall.

**Ansell** **Booth(s): 4904**

Phone: (732) 570-1726

Website: www.ansell.com

**Product: MICROFLEX (r) Soft White Nitrile TQ-601**

**Description:** Designed with our patented HYDRASOFT™ Skin Mointurizing Technology which is proven to allow skin to retain 2x more moisture\* than gloves without HYDRASOFT™. Soft Nitrile formulation provides a comfortable fit and feel, Thin and Lightweight to ensure excellent tactility.

**Apteryx Imaging/ VELscope** **Booth(s): 3336**

Phone: (678) 293-9413

Website: apteryx.com

**Product: XVWeb 3D**

**Description:** XVWeb utilizes Microsoft Azure cloud technology to deliver state-of-the-art clinical image storage, optimization and analysis as a cost-effective subscription service. The new XVWeb 3D module adds support for accessing, viewing and securely sharing cone beam computed tomography (CBCT) datasets via any compatible web browser in real time. Requiring no downloading of data for image manipulation or enhancement, XVWeb 3D allows practices to access their clinical image data 24 hours per day, 7 days per week from compatible web-connected devices with the added security of off-site storage and back-up. All 3D image interactions can be performed via the web, utilizing a full suite of online image enhancement and annotation tools. For more information, please visit www.apteryx.com/xvweb3d or call 877.APTERYX.

**BEE Corp** **Booth(s): 3243**

Phone: (702) 751-0818

Website: https://thebeecorporation.com

**Product: DenPass Professional Interdental Brush Line**

**Description:** Entire line of Interdental Brush created specifically for the Dentist Market with various style for Dentist/Hygienist to recommend for their patient. Each style have 9 sizes to provide the perfect fitment and maximum cleaning. Packaged for potential resale at Dental offices.

**Product: DenPass Baby Ring Toothbrush**

**Description:** Custom designed toothbrush with features that make oral hygiene fun and safe for baby and toddler 0-2 years old.

**Product: DenPass CCS PRO Toothbrush**

**Description:** CCS Pro Toothbrush line was created for targeted usage. Specifically designed and packaged for the Dentist Market.

**Product: DenPass Fun Animal Flosser for Kids**

**Description:** Animal shape Flosser specifically designed to help kids with oral hygiene.

**Beutlich Pharmaceuticals** **Booth(s): 2812**

Phone: (800) 360-0667

Website: www.beutlich.com

**Product: MEDCOAT: www.medcoatusa.com**

**Description:** MEDCOAT makes your pills easier to swallow. MEDCOAT is an amazing new product that will revolutionize the way we take medications. MEDCOAT pill coating covers pills and capsules with a coating making them slippery and easy to swallow. The coating also makes the bad taste of pills and give them a refreshing taste. It is sugar-free and has no artificial flavors or added colors. The special coating applicator is easy to use and can work on any size shaped pill or capsule.

**Big Mouth Survey** **Booth(s): 1032**

Phone: (835) 782-7752

Website: www.bigmouthsurvey.com

**Product: Big Mouth Survey**

**Description:** Big Mouth Survey mission is to change the way companies collect & use survey data. Big Mouth Survey will collect critical feedback directly from consumers. With our unique approach, Big Mouth Survey clients will be able to use data collected to create a course of action concerning a particular pain point in "Real Time".

**BioFilm** **Booth(s): 4722**

Phone: (781) 742-7224

Website: www.biofilm.co.uk

**Product: BE BRIGHTER**

**Description:** Our Revolutionary dissolvable strip technology means a simple and easy "one step" process and they rapidly dissolve, typically within just 10-15 mins. Be Brighter is ideal on a busy day. There's no messy gels or liquids involved, no preparation required and no residue to deal with, leaving your mouth with a fresh mint flavor. Be Brighter lightens by up to 7 shades, making a noticeable difference and are suitable for upper and lower teeth. They immediately start working to remove common stains.

**BlueLight Analytics** **Booth(s): 4211**

Phone: (902) 318-6686

Website: www.bluelightanalytics.com

**Product: checkUP**

**Description:** checkUP is the world's first smart light measurement and materials management device. Accurately and routinely monitor the output of your curing lights, track your list of materials, and generate precise curing times based on each light reading. The goal? To help you cure with confidence.

**Brasseler USA** **Booth(s): 2617**

Phone: (912) 925-8525

Website: www.brasselerusa.com

**Product: Forza Short Series Electric Attachments**

**Description:** Next Generation Forza Attachments in a Mini Head Design. Ultra slim head and neck design for unprecedented access. Designed to be lightweight, ergonomic with significantly reduced head and neck size. The smallest and most lightweight 1:5 attachment on the market today. Works with both Short Shank and Standard Length Friction Grip Burs. Backed by a 3 Year Warranty.

**Product: Forza ELXT Clinical Electric Motor**

**Description:** Introducing Brasseler's next-generation electric motor, the Forza ELXT -an electric motor with unsurpassed power, exceptional performance and cutting-edge safety. The Forza ELXT offers an incredible 4.2 Nm of torque! Nearly 30% more power than the industry average. Featuring a split-module space saving design, the Forza ELXT reduces the risk of patient burns with the advanced Safety Check Function. The lightweight and compact design sets the standard for dental electric motors.

**BURST** **Booth(s): 614**

Phone:(918) 933-3591

Website: www.burstoralcare.com

**Product: BURST Floss**

**Description:** NEW BURST Floss is a 32 yard bobbin of textured filament that expands in your mouth to remove plaque. Its unique antimicrobial black coating means you will literally see the debri removed from your teeth, while it absorbs stains. This tasty mint eucalyptus floss is free from harmful poly(fluoroalkyl) substances (PFAS) and comes in a sleek refillable case. Replacement bobbins ship direct to your door every 3 months - an industry first.

**CAO Group, Inc.** **Booth(s): 801**

Phone:(801) 865-5034

Website: caogroup.com

**Product: Cavity pHghter Testing Strips & Mints**

**Description:** Cavity pHghter (TM) from CAO Group offers a convenient and effective system for patients at risk of caries to identify the risk and neutralize it. A correlation between low incidence of cavities and high saliva pH and high saliva buffering capacity has been established. And studies have concluded that salivary pH may be used as a diagnostic biomarker. The Cavity pHghter system contains two key products: Cavity pHghter Testing Strips report both the pH and buffering capacity of saliva. Cavity pHghter Mints are designed to counteract the production of acid after a meal. The product contains sodium carbonate for the purpose of neutralizing any acid in the saliva and to increase the pH in the oral environment to a basic pH range (above 7). The pleasantly flavored Mints also contain calcium ascorbate to flood the mouth with buffered calcium ions. The convenience and simplicity of the system help assure compliance, so it can be incorporated into the patient's care routine at home or in-office.

**Carestream Dental** **Booth(s): 3228**

Phone:(855) 781-4380

Website:www.carestreamdental.com

**Product:CS 3700 Intraoral Scanner**

**Description:** High performance meets ergonomic design for uncompromised scanning in the CS 3700 intraoral scanner. The scanner features smart-shade matching and can automatically generate a shade report with multilayer shade information. The CS 3700 also features increased scanning speed up to 20 percent increase over previous Carestream Dental scanner models - without sacrificing accuracy. Turbo speed scans have been tested and proven to scan in-vitro single arches in 30 seconds when the recommended PC Configuration is used. \* In vitro testing

**ContactEZ** **Booth(s): 3424**

Phone: 360-694-1000

Website: www.contactez.com

**Product: Signature Set and Rainbow Set**

**Description:** Ensure you always have the easiest way to solve commonly-encountered problems when placing restorations or performing IPR with the new Signature Set and Rainbow Set. The Signature Set is a comprehensive solution for finishing crowns and composites with perfect proximal contacts, complete removal of trapped interproximal cement, impeccably polished contact surfaces, and 100% overhead-free margins. The Rainbow Set combines our IPR Plus to give you everything you need to perform safe, effective enamel stripping to any patient.

**Curaprox / Curaden** **Booth(s): 3600**

Phone:(800) 919-0120

Website: www.curaprox.com

**Product: Hydrosonic Pro**

**Description:** Hydrosonic works so gently that even people with sensitive gums can finally breathe a sigh of relief. The difference lies in the bristles: CURAPROX Hydrosonic's incredibly soft and fine CUREN'S (r) filaments clean more intensely, gently and pleasantly. And remember: a Hydrosonic is your introduction to professional oral care. The start of a new era in oral health - you can't fail with a Hydrosonic.

**DDS Dental Supplies** **Booth(s): 1310**

Phone: (877) 545-6837

Website:www.denmat.com

**Products: Zirconia Prime® / Perio Restore™**

**Description:**DenMat has expanded its line of Soft Tissue Management products to include Perio Restore™, a non-invasive home treatment system to treat and prevent periodontal disease. Zirconia Prime is designed to treat the surface of Zirconia, Alumina, and Metal restorations providing optimal bond strength and allowing clinicians to provide their patients with lasting restorations.

**Dental Choice Holdings, LLC** **Booth(s): 3238**

Phone: (908) 400-4690

**Product: CUSTMBITE DENTAL NIGHTGUARD**

**Description:** Indication(s) for use: The CustMbite Dental NightGuard is an over-the-counter dental guard indicated for the protection against bruxism - the nighttime clenching and grinding of the teeth.

It is intended for use in the mouth at night to reduce damage to the teeth and to prevent the noise associated with teeth grinding. It is intended for individuals age 18 and older.

**DentLight Inc** **Booth(s): 4603**

Phone: (800) 763-6901

**Product: Nano Freedom 2**

**Description:** Advanced wireless light (5 grams) that easily fits on loupes, goggles or glasses. Effortless with no stray wires and no hassle. Unique touch-free battery distributes weight to frame temple avoiding weight on nose. Focused 20,000 lux beam runs for 3 hours. Interchangeable wires for add-on: 1) freedom plus battery pod for 40,000 lux or 6 hours; 2) direct connect to Nano 2S+ Gen2 battery for 10 hours; 3) Violet black light for adhesives and caries fluorescent imaging.

**Diamond Orthotic Lab** **Booth(s): 816**

Phone: (619) 724-6400

Website: www.diamondorthoticlab.com

**Product: DDDSO**

**Description:** New Sleep Orthotic in both a dorsal and banded style. This is made from Printed Nylon with a 5 year unconditional warranty.

**DIGIRAY CORP.** **Booth(s): 2823**

Phone: 82-31-927-9225

Website:www.digiray.co.kr

**Product: FireCR Dental Reader**

**Description:**The full-featured FireCR Dental Reader from DIGIRAY rapidly and affordably delivers high-quality digital images for busy dental practices, optimizing chairside time with patients.

**Elevate Oral Care** **Booth(s):927**

Phone: (877) 866-9113

Website: www.elevateoralcare.com

**Product: SMART Advantage(TM) Glass Ionomer Restorative**

**Description:**This is the first glass ionomer designed specifically to mask SDF treated and discolored surfaces. SMART Advantage is a self-cure, traditional fluoride-releasing glass ionomer. Use SMART Advantage stand-alone for posterior needs. For more tooth-like restorations, SMART Advantage can be used in a sandwich technique with either a more translucent glass ionomer or composite for ultimate aesthetics. Available in A1, A2 and mixed shade kits, SMART Advantage Glass Ionomer will be the go-to choice to cover SDF darkened sites. Gain control, without compromising strength for your caries active patients.

**ENZO UNIVERSA ARTICULATOR** **Booth(s): 810**

Phone: (914) 835-2451

**Product: ENZO UNIVERSAL ARTICULATOR**

**Description:**The Enzo Articulator is proving to successfully integrate with many of the leading digital model systems when a more accurate articulator is called for. The articulator continues to be a very popular choice with the use of standard models as it eliminates plaster and the resetting of articulations is achieved in seconds. It replicates true lateral and protrusive excursions. Lightweight and perfectly balanced, it fits comfortably in the technician's hand. \*One Articulator for full arch or quadrant

\*Precision interlocking components provide very accurate articulations in seconds \*\*Both upper and lower plates swivel 360 degrees on ball joints allowing for all types of movement handling even the most difficult bites \*\*\*True lateral and protrusive excursions \*\*\*Lightweight and perfectly balanced, it fits comfortably in the hand \*\*\*immediate bite changes made by the dentist

**FORCA Healthcare F.Z.C.** **Booth(s): 5113**

## For Those Who Want To Improve The Health Of Their Patients And Succeed In The Changing Healthcare System

**B**e a part of the second “Essential Total Health For All Health Professionals” program at the GNYDM. While it is imperative that you practice the highest quality of patient-centered care, you must also better understand the critical issues facing health professionals as they strive to succeed and excel in an emerging and changing health care system.

The two days of exceptional panels bring together thought leaders, educators, respected providers, and innovative leaders to discuss and share the challenges facing all of you that practice, manage and educate within the healthcare space whether private sector or community health clinic based.

The integration of oral health into primary care along with the growing needs of our most vulnerable populations in an era of innovative technology and value-based care payment are challenges that you must understand to succeed. These will be directly addressed during the two-day public health symposium.

I want to share some of the important “Total Health” issues facing oral health providers and the administrators that help guide the appropriate delivery of needed services.

The two panels on Tuesday bring together some of the most respected leaders in Dentistry to share their work and thoughts about the integration of Value-Based healthcare payments/reimbursements. Areas that will be addressed include the changing system, i.e. insurers, and providers, and the changing population needing oral health care.

The rapidly growing senior population adds new and complex issues to an already stressed system. Approximately 58 million people rely on the Medicare program – and only about one-third of them have any coverage for oral health care. The Medicare statute currently excludes coverage for most oral health care. Nearly three out of five seniors and more than three-fourths of low-income seniors do not visit a dentist during a typical year. One in five seniors has untreated tooth decay. One in five seniors, and two out of five low-income seniors have complete tooth loss.

It's tragic that in a time when new diagnostic and treatment options are available for the management of Cancer that oral cancer continues to be a prevalent issue for the dental profession. There will be an expected 51,000 new cases of oral cancer in the U.S. this year with over 20% of these resulting in related deaths. This is unacceptable and needs to be addressed by all of us. Simple oral cancer screenings can be done in minutes with early detection a critical step in preventing the tragic effects of more advanced treatment. Issues

related to reimbursement, scope of practice, available new technology and practice interest and success in providing preventive services will be discussed.

Another area of growing concern is the oral health care for those at risk, people with disabilities and those with intellectual and developmental disabilities. Many oral health care providers do not feel well enough trained or that their clinical space is not designed to manage these patients. There are an estimated fifty-nine million Americans that are disabled and in need of oral health care! Those with intellectual and developmental disabilities such as those on the autism spectrum require a level of understanding and sensitivity that is clearly attainable and tremendously rewarding. It is important that all of us understand the need to provide quality, accessible care while developing the skills and confidence to manage these patients in a welcoming and sensitive manner. We are fortunate that the Wednesday morning panel brings together an internationally respected group of expert physicians, dentists, disability leaders, and innovative educators to assist you in better understanding the needs of these patients with disabilities and how you can be better equipped to integrate these very special patients into your clinical environment.

The expansion of the dental team has been a discussion and process that has garnered quite a bit of controversy over the past few years. We now have Dental Therapists on our team. Learn more about how they contribute to increasing access to care. This is an issue that Medicine faced when the idea of adding Physician Assistants (PAs) to their team surfaced years ago. PAs have become an integral part of medical practice. We saw this within dentistry back in the 1960s when there was opposition to this new group of dental providers known as the Dental Hygienist. Can you even imagine dentistry being practiced without Dental Hygienists as part of the team? I can't.

The development of Telehealth technology has led to the “Virtual Dental Home”. This has opened new pathways to address the significant issue of a patient's inability to travel to a dental office – particularly in rural communities and the frail elderly. New technology and innovative educational programs have now added nurses and physician assistants to the expanded oral health team! Learn more about these emerging and growing collaborations. Also, meaningful screenings and interventions that can be done by an RDH affiliated with a dental practice so that preventive, noninvasive procedures can be delivered at reduced cost and with greater efficiency. These innovative programs have provided the opportunity for dental providers to collaborate with physicians to provide better “whole person” health care. The panel on Wednesday afternoon literally brings together the national leaders of this effort who will present and discuss how they do it and how you can explore opportunities to bring these innovations and the expanded role of RDHs into your practice.

**Attendance at these panels is free to dental residents and dental students. Please take advantage of this very special opportunity; Registration is still open!**

# “Because So Many Rely On You, You Can Rely On Us” Why Health Care Professionals #RelyOnHenrySchein

**I**t's the day-to-day obstacles that dentists often need help navigating, and this was the case for Dr. Karen Roschella and Dr. Ann Zinger, who told their story as part of Henry Schein's #RelyOnHenrySchein campaign.

Without those machines, our practice would have ground to a halt — not only that day but for weeks,” said Drs. Roschella and Zinger, of Roschella & Zinger Dental Group, in Marriottsville, MD. “We immediately called our Henry Schein service technician who rearranged his schedule to race to our practice and developed a temporary solution that kept us in business until our new machines arrived. He saved the day, and that's why we rely on Henry Schein.”

A solutions company for health care professionals, Henry Schein, is dedicated to focusing on practice care so that customers can focus on patient care. Through its network of trusted advisors, health care professionals rely on Henry Schein for information, education, and advice on the more than 300 Business, Clinical, Technology, and Supply Chain Solutions the Company offers. From helping

customers grow their business, to delivering the right products at the right time, Henry Schein can help its customers overcome any obstacle.

The #RelyOnHenrySchein campaign puts the spotlight on Henry Schein customers and provides health care professionals with a platform to share their unique experiences in managing productive and efficient practices. Through a collection of authentic stories, Henry Schein explores events that led customers to #RelyOnHenrySchein.

When multiple pieces of equipment went down with a full day of patients ahead, they knew to call Henry Schein.

An equipment failure of this kind is a dentist's nightmare, and Dr. Roschella and Dr. Zinger quickly realized that if it weren't for the help of Henry Schein, they would have been without X-ray machines for weeks. Their Henry Schein service technician came to the rescue and reassured the doctors the problem would be solved so they could continue doing what they do best — taking care of their patients.

Whether it be solving everyday problems or opening a new practice, Henry Schein is there to help. In another example of extraordinary customer support, Henry Schein helped Dr. Scott Kalniz turn his dream into a reality. After 16 years of dentistry,

Dr. Kalniz decided to expand his business and created Elite Dental Partners, a DSO that focuses on aiding dental practice owners with the growing challenges they face by providing industry-proven, non-clinical business support services. Partnering with the organization since its beginning, Henry Schein has helped Elite Dental Partners grow exponentially — supporting 100 practices in under five years.

“Our mission has always been to improve patient care by improving the lives of our doctors and teams. With Henry Schein as a partner, we give our teams the choices they want and the support they need to be the best clinicians possible,” said Dr. Kalniz. “It has helped us achieve our 10-year goal in four-and-a-half years, and that's why we rely on Henry Schein.”

Henry Schein uncovers real-life situations through this campaign, each with a unique challenge and equally unique solutions offered to help the customer overcome it. Henry Schein makes a promise to be there when its customers need it most, and that's why health care professionals #RelyOnHenrySchein.

**For more #RelyOnHenrySchein stories, please visit [www.henryschein.com/relyonus](http://www.henryschein.com/relyonus).**

## INTRODUCING DIADENT'S NEW ROOT CANAL SEALER, DIA-PROSEAL

**T**he purpose of an endodontic sealer is to help prevent leakage, reducing the possibility of reinfection, and healing the periapical lesion. A good filling needs to be three dimensional and to prevent any possibility of reinfection of the root canal. An ideal root canal sealer should possess excellent sealing ability, dimensional stability, insolubility, and biocompatibility. DiaDent's new epoxy resin-based root canal sealer, Dia-ProSeal, is your ideal root canal sealer.

Dia-ProSeal has an excellent sealing ability. It has minimal shrinkage to reduce gaps between the sealer and canal wall. Used in conjunction with DiaDent's gutta percha points, Dia-ProSeal has high dentin adhesion. Its outstanding flow characteristics allow the material to reach and seal lateral canals, making it especially suitable for warm gutta percha technique. Dia-ProSeal is also antimicrobial because of its high pH value with the addition of calcium hydroxide. With its dual barreled syringe, Dia-ProSeal's 1:1 paste to paste manual mixing system is fast and easy with no wasted material. Extrude the material onto the mixing pad and mix

well with the spatula for 10-20 seconds until the base (yellow) and catalyst (white) material are completely mixed together. Dia-ProSeal has low solubility, so it is resistant to material breakdown over time to ensure long-term dimensional stability. Also, the material is highly biocompatible – if unintentional extrusion happens, the extruded material is easily resorbed to minimize periapical inflammation and sensitivity. It is highly radiopaque and has a generous setting time of 3-4 hours.

View detailed information on DiaDent's website at [www.diadent.com](http://www.diadent.com). Purchase Dia-ProSeal today from your trusted authorized dental dealers such as Henry Schein, Patterson, Benco Dental, Darby Dental, Ultimate Dental.

**DiaDent is exhibiting at the GNYDM in Booth #1505. Visit our booth for exclusive show specials, samples, and more product information.**

## INDIA'S DENTAL MARKET SNAPSHOT

**T**he Indian medical device market is worth an estimated \$9 billion and is expected to reach \$14 billion by the end of 2025.

The medical device industry is a very attractive export sector for U.S. firms, which account for one-quarter of exports to India. India imports nearly 80% of its medical devices, and barriers to entry are low compared to other industries. India remains highly dependent on imports for many types of medical devices, particularly higher-end products that include cancer diagnostics, medical and dental imaging, orthodontic equipment and dental implants, ultrasonic scans, and PCR technologies.

The potential size of India's dental market is huge and is expected to become one of the largest single-country markets for overseas dental products and materials. The total market for the dental equipment and materials is currently estimated at \$90 million. Imports are growing rapidly as world-class hospital groups such as Max, Hinduja Group, Fortis and Apollo build high-end infrastructure and open India to medical tourism, which now adds \$2 billion to the Indian healthcare market.

In a country of 1.3 billion population, there are more than 180,000 dental professionals that include 35,000 specialists practicing different specialties. With more than 300 dental institutes and over 5,000 dental laboratories, the country's demand for dental products is expected to grow from 20 percent to 30 percent in the coming years.

The Central Drugs Standard Control Organization (CDSCO) is the key regulatory organization in India for medical devices and pharmaceuticals. The Drug Controller General of India (DCGI) is the key official within the CDSCO. The DCGI is responsible for the approval of the manufacturing of certain drugs (vaccines, large volume parenteral, blood products, rDNA derived), specific medical and dental devices, and new drugs. In India, the manufacturing, import, sale, and distribution of medical devices are

regulated under India's Drugs & Cosmetic Act and Rules (DCA). Please visit <https://www.cdsc.gov.in> for more information on import regulations and registration procedures for medical devices and diagnostic equipment.

To ensure quality healthcare, in October 2005, the GOI increased the list of medical devices covered under the Drugs and Cosmetics Act of 1940, bringing several categories of implantable devices under regulatory control. This list was revised again on October 18, 2019, bringing several additional categories of implantable devices under regulatory control. The new classification of medical devices is devices with the lowest risk – Class A, devices with low-moderate risk – Class B, devices with moderate-high risk – Class C, and devices with high risk – Class D.

Most of the dental diagnostic equipment and implant devices come under high-risk devices and go through mandatory regulatory approvals in India. The import license for Class A and B medical device starts at \$1000 for one site and \$50 for each distinct device. The import license for Class C and D medical device starts at \$3000 for one site and \$1500 for each distinct medical device.

To learn more about sales opportunities in India, please visit the International Business Center to request a meeting with the Ruma Chatterjee, Commercial Specialist at the U.S. Consulate in Mumbai, India.

The International Business Center (IBC) is a meeting and lounge area where U.S. exhibitors can pursue sales opportunities in foreign markets by meeting foreign buyers and receiving export counseling. The IBC is provided as part of the International Buyer Program organized in partnership between the Greater New York Dental Meeting and the U.S. Department of Commerce. The IBC is open to all U.S. exhibitors.

### IBC Location and Hours: Registration Area, Crystal Palace

# Quit Your Neck Pain

Experience the Difference at Booth #2200

Clinicians practicing with their ergonomically-fitted SurgiTel loupes.

## Why Dentists Prefer **SurgiTel**<sup>®</sup>

"... After a lengthy search ... with several sets of loupes from all of the major manufacturers, I found the SurgiTels to have the steepest viewing angle and the most customization options... Now I have the ability to keep my head level while working, making it much easier to maintain correct posture. That tense, uniquely dental shoulder-neck pain is a thing of the past!"

**-Richard Stiles, DDS**

"Shortly after school and residency training, I started getting neck pain and headaches... One of my colleagues said that it might be the loupes I'm using ... My friend told me to check out SurgiTel ... I contacted [SurgiTel] and my life has never been the same!"

**-Dr. Katherine Staniek, DMD**
