TOP 10 Attractions In NYC
During the Festive Season

By: Jayme McNiff Spicciatie, GNYDM

Having a hard time deciding what to do after the Exhibit Floor closes? We have some suggestions to help you navigate this exciting city.

Start with a bus tour in Time's Square and spend some time exploring the city from a comfy seat with an experienced tour guide. The Ride is an interactive entertainment experience. It's a great way to see many sights at once and is just as magical at night as it is during the day time.

1 Roam around **GRAND CENTRAL STATION**, with its ornate early urban architecture and cavernous grand concourse. Stop at the Oyster Bar & Restaurant for a bite to eat and don't forget to try out one of NYC's best kept secrets: "The Whispering Gallery." Located right outside the restaurant, have your voice transmitted across the terminal in this unbelievable phenomenon of architectural wonder.

Scenes from the Show

Mr. Abdul Salam Al Madani, AEEDC, INDEX along with the organization committee, GNYDM expand their collaborative efforts at the Greater New York Dental Meeting

The show floor was jam packed on Sunday

5th Annual Latin American Breakfast: Delegates from over 40 countries met at the GNYDM to discuss elevating quality oral healthcare in their respective countries

The Greater New York Dental Meeting is Sponsored by the Second District Dental Society and the New York County Dental Society

**THE
FUTURE
IS OURS** 

AIR
TECHNIQUES equipped for life[®]

NYC (cont.)

2 Take an elevator to the top of the **EMPIRE STATE BUILDING** to experience the most spectacular view. Walk out on the deck and see the city from above. Open 365 days from 8am – 2am, the Empire State Building is the most famous observatory in the world with one-of-a-kind views of Central Park, The Hudson River and East River, The Brooklyn Bridge, Times Square, The Statue of Liberty, and much more!

3 The 2017 **ROCKEFELLER CENTER CHRISTMAS** will be lit for the first time on Wednesday, November 29th at Rockefeller Plaza, between West 48th and West 51st Streets and Fifth and Sixth Avenues. Tens of thousands will crowd the sidewalks for the event and hundreds of millions will watch it live across the globe. The Tree will remain lit and can be viewed until 9pm on January 7, 2018.

4 Honoring the lives of those who were lost, the **9/11 MEMORIAL AND MUSEUM** occupies 8 acres at the World Trade Center. The Memorial is a tribute to the past and a place of hope for the future. The 9/11 Memorial is free of charge and open to the public daily from 7:30 a.m. to 9 p.m. The National September 11 Memorial Museum serves as the country's principal institution concerned with exploring the implications of the events of 9/11, documenting the impact of those events and exploring 9/11's continuing significance. Admission is \$24 for adults.

5 Dressed in all its holiday finery, the Christmas **CHRISTMAS WINDOW DISPLAYS** are a sure holiday sight to see. It's no wonder New York City is considered one of the Greatest Cities in the World! Macy's Christmas Windows feature the popular holiday movie scenes from a "Miracle on 34th Street," along 34th street and along Broadway. Stop in Macy's for a little shopping and ride the wooden

escalator for a blast-to-the-past. Also, check out Lord & Taylor's Holiday Windows with animated displays; Saks Fifth Avenue with their wintery version of some of the Natural Wonders of the World; also must-see's are Bloomingdale's, Barney's and Bergdorf Goodman Holiday Windows.

6 New York City's **BROADWAY SHOWS AND RADIO CITY MUSIC HALL** are the Theater District historical icons. They're a must not be missed. See the hottest shows, our suggestions are: The Book of Mormon, Aladdin, Hamilton, or Beautiful: The Carole King Musical. Feeling festive? Why not purchase tickets to the Radio City Music Hall's Christmas Spectacular.

7 Journey to the top of One World Observatory, the tallest building in the Western Hemisphere, the **FREEDOM TOWER**, and admire the incredible views of New York City. Marvel at the modern décor and exquisite design. The tower ascends 69 stories with an enclosed observation deck rising 1,250 ft. above street level.

8 See New York City from a view unlike any other, the **TOP OF THE ROCK**, at 30 Rockefeller from the 70th floor. Stop by at night after the exhibit floor and see NYC's lights span for miles. Top of the Rock Observation Deck is open daily until 11pm.

9 New York City is the greatest **SHOPPING** Mecca of the world! Don't waste your opportunity to explore small boutiques for unique gifts in SOHO or the West Village then make your way up to the historic Macy's of 34th street (located at Herald Square between Broadway & 7th Avenue).

10 Take the family Ice skating for FREE at **WINTER VILLAGE IN BRYANT PARK**, open from 8am – 10pm. Wander small boutique shops and kiosks selling jewelry, local foods, decorative goods, toys and gifts for pets from artisans from around the world. Afterwards, grab a bite to eat and a cocktail at Celsius with rink-side views.

From the lively streets of Times Square to the leisurely neighborhoods on the upper Eastside and all the way down to the Charging Bull outside of the Stock Exchange, New York City offers something for everyone!

Steven J. Clark, M.D., D.M.D.,
Plastic & Reconstructive Surgeon
Botulinum Toxin (Botox) and Facial Fillers

Give It Your Best Shot! *Understanding Injectables*

If you don't believe that injectables are the most popular cosmetic procedure, just ask one of the more than 8 million+ (*ASPS 2014 Statistics) who have sought minimally invasive procedures to improve the wrinkle lines, replace facial volume and restore balance to the signs of the facial aging.

The reason so many people are jumping on the bandwagon is simple: treatment can take just one doctor's office visit, the results are relatively quick and the costs are economical with little or no downtime. These trends are driven by "baby boomers" staying in the work force longer and who may not have the time for a surgical recovery. They understand that aging is inevitable, but looking old may be somewhat optional. The non-surgical modalities to shape the aging face can be categorized in several ways.

- 1. Neuromodulators** consisting of botulinum toxin type A are presynaptic nerve blockers that selectively relax the injected muscles. The cosmetic effect is achieved by rebalancing the activity of the muscles in the face by weakening some and not others and by carefully choosing the dose of the product according to each patient's individual anatomy, muscle mass and the cosmetic goals to be achieved.
- 2. Facial Fillers** have been around for more than three decades. In the 60's and 70's bovine collagen was used to fill fine wrinkle lines. As many new improved products have been introduced, and as clinicians have gained experience with them, a whole

new treatment philosophy has evolved with better cosmetic results, enhanced patient safety and greatly improved patient satisfaction. The typical aged face represents a combination of changes on many levels, including bony structures, subcutaneous fat, muscle strength and skin integrity. These structural changes then lead to morphologic changes in terms of three dimensional contours and topography of the face, as well as in its shape, balance and proportions.

Advancements in our understanding of the anatomy of aging, in the advent of newer products and techniques have dramatically increased our ability to address these changes. We now evaluate patients in a global fashion instead of focusing on discrete wrinkle lines. We take a top to bottom approach evaluating symmetry, morphology of the face in terms of three dimensional contours that dictate how we reflect or shadow light and the shape, balance, volume loss and proportions of the face. A good result is dependent upon proper training. A clinician must use his skill and aesthetic perception with a careful pretreatment assessment to determine which injectable amount and location will deliver the best result. Often patient selection rather than product selection may be the most important factor in predicting outcomes.

Registration is still open! Botox & Facial Fillers: A Clinical Workshop and Demonstration

General Registration

Jacob K. Javits Convention Center Upper Level - Crystal Palace

Friday, November 24	8:00 A.M. to 4:30 P.M.
Saturday, November 25	8:00 A.M. to 4:30 P.M.
Sunday, November 26 through Tuesday, November 28	8:00 A.M. to 5:30 P.M.
Wednesday, November 29	8:00 A.M. to 5:00 P.M.

Exhibits Floor Hours - Technical and Scientific

Sunday, November 26	9:30 A.M. to 5:30 P.M.
Monday, November 27	9:30 A.M. to 5:30 P.M.

Teeth straightening is just the beginning.

➤ Visit Align Technology at booth #5204 to pick up a water bottle.*

Expand your interdisciplinary horizons with Invisalign® treatment.

Let us show you how you can achieve better aesthetic outcomes using Invisalign® clear aligners prior to restorative treatments. In fact, Invisalign treatment can contribute to better overall outcomes when combined with restorations, compared with restorative treatment alone.**

Come to our booth to learn more about:

- Treatment planning tools designed specifically for interdisciplinary dentistry
- Intelligent technology that enables you to preview every step of treatment
- Digital tools that deliver engaging patient education to drive treatment acceptance
- The Invisalign Outcome Simulator—powered by the iTero Element® scanner—that enables patients to visualize their potential smile before treatment begins

For more info on combining Invisalign with your restorative treatments, visit the booth or go to: www.invisalign.com/gnydm2017

* Must visit the Align Technology booth during exhibit hall hours and complete a short survey to receive an Invisalign®/iTero® branded water bottle. Available for survey participants while supplies last.

** 1. Volker (2011) <http://www.dentistrytoday.com/aesthetics/6638-combining-orthodontics-with-conservative-restorative-care>. 2. Lowe (2008) minimally invasive dentistry combining orthodontic therapy and single-unit restoration. Pract Proced Aesthet Dent.

INTERESTED IN IDENTIFYING NEW MARKETS FOR YOUR EXPORT PRODUCTS?

INTERNATIONAL
T R A D E
ADMINISTRATION

The U.S. Department of Commerce's office of Industry & Analysis is here at GNYDM to help you do just that!

INDUSTRY AND ANALYSIS:

What we do:

Industry and Analysis's (I&A) staff of industry, trade and economic analysts devise and implement international trade, investment, and export promotion strategies that strengthen the global competitiveness of U.S. industries. These initiatives unlock export and investment opportunities for U.S. businesses by combining in-depth quantitative and qualitative analysis with ITA's industry relationships.

We do this by representing the interests of U.S. industry in trade negotiations, advocating on behalf of industry with foreign governments, publishing research on global opportunities for U.S. industry, and executing export promotion programs. Our efforts ensure that foreign markets are open for U.S. industry, and help guide U.S. businesses toward the best export markets.

WHO WE ARE:

Manufacturing

Manufacturing advocates on behalf of domestic industries, and analyzes key factors affecting global markets for manufactured products such as medical technologies to facilitate the export of U.S. goods and promote inward investment. This unit executes comprehensive competitiveness strategies that focus the entire range of policy and promotional tools to strengthen global opportunities for U.S. manufacturers.

Services

This unit assesses the global environment for service sectors including healthcare, addresses foreign market trade and investment barriers, and promotes service export opportunities and inward investment. This unit executes

comprehensive competitiveness strategies that focus the entire range of policy and promotional tools to strengthen global opportunities for U.S. service providers.

The Trade Policy & Analysis (TPA)

TPA provides data, analysis, and recommendations on policy and promotion issues affecting U.S. industry competitiveness in a global setting to maximize U.S. gains in trade negotiations. TPA addresses investment and standards-related market access barriers, evaluates the economic effects of regulatory programs, advances U.S. commercial interests on international intellectual property issues, and coordinates DOC input in World Trade Organization (WTO) committees and negotiations.

Trade Promotion

Supports the entry of U.S. industries into new markets by establishing domestic forums to showcase U.S. goods for foreign purchasers through the International Buyer Program, and certifying international forums to connect U.S. exporters with overseas clients through the Trade Fair Certification Program. In addition, we create opportunities for U.S. firms to meet on a one-to-one basis with foreign industry executives, and government officials to establish sales channels through the Trade Missions Program. Our Strategic Partnership Program works in conjunction with private corporations, trade associations and educational institutions to leverage combined resources to further U.S. exports.

Advisory Committee Program

The Advisory Committee Program engages industry in the formulation, and implementation of trade policies and programs through the administration of advisory committees composed of private sector representatives. These include the President's Export Council (PEC), Industry Trade Advisory Center (ITAC), Manufacturing Council (MC), and Travel & Tourism Advisory Board (TTAB).

Other Divisions

Other divisions within Industry and Analysis include the Trade Agreements Secretariat, which administers dispute settlement for international trade agreements; Textiles, Consumer Goods & Materials, which administers agreements to ensure a fair trading environment for those industries; and the Travel & Tourism Office, which creates a positive climate for growth in travel and tourism.

Industry and Analysis is pleased to be a part of the Greater New York Dental Meeting again this year, and it helps U.S. manufacturers of dental equipment and supplies connect with international buyers to increase export sales and support jobs in an economically-strategic sector. Come visit Gerard Zapiain, Senior International Trade Specialist within I&A's Office of Health and Information Technology (OHIT), to begin identifying new markets for your products. OHIT is dedicated to strengthening the global competitiveness of the U.S. health and information technology industries, by expanding their access to foreign markets and increasing U.S. exports.

OHIT monitors business and economic trends in the health and IT industries and provide data on trade and global markets in these sectors. Using their industry knowledge to inform their analysis of trade policy worldwide, OHIT works to influence the development of U.S. trade policy in these sectors. OHIT participates in formal trade negotiations and other bilateral and multilateral activities to advance trade opportunities for U.S. companies. Additionally, OHIT provides industry and policy expertise to other units of the International Trade Administration and the U.S. Government, and evaluates the impact of international economic and regulatory policies on U.S. manufacturers.

To find out more about what I&A's Office of Health and Information Technology can do for you, visit Gerard Zapiain in the International Business Center in the International Registration Area. You may also contact him via email at Gerry.Zapiain@trade.gov.

GNYDM 2017 Implant Poster Competition

By: Dr. Stuart L. Segelnick

Dentists, researchers and residents from around the world presented their scientific posters on Sunday, November 26th for a chance to win the CARL E. MISCH AWARD FOR EXCELLENCE.

Attendees viewed over 200 scientific posters presented by global clinicians. This amazing event, which is designed to stimulate research in the field of implant dentistry, continues in its third year with many innovative submissions in the field of dental implants and implant related science.

The judges for this year's competition are: Drs. James H. Doundoulakis, Constantine Pavlakos, Edward J. Miller, Jr., Maurice Edwards, Clifford E. Salm, Stuart L. Segelnick, Lorna Flamer-Caldera and Irvind Khurana. Each of these judges has extensive knowledge in the field of implant dentistry. Due to the overwhelming number of exceptional posters the judging is done in two stages, one before and one during the Greater New York Dental Meeting. Prior to the Meeting the judges spend many hours reviewing the posters. Some of the criteria they use to choose the winners of the competition are: how well organized and neat the poster presentation appears along with how clearly the objectives are communicated; materials and methods; results; and finally the summary. The posters should be easily read from a normal viewing distance and include items that are relevant. The figures and tables should be clear and concise and the photos and captions are required to be easily understood and of high quality. Spelling and grammar are also evaluated and taken into consideration. The content of the posters ultimately must be of exceptional value to the field of implant dentistry. During the meeting, the posters that have passed this initial stage

are evaluated for the verbal presentation given by their presenter. The presenters focused on the highlights of their poster and were judged by their performance in presenting a smooth, clearly spoken presentation where eye contact was maintained. The judges also appraised how accurate and confident the presenters were when answering questions on their posters.

The winners of the 2017 CARL E. MISCH AWARD FOR EXCELLENCE:

The Misch awards were presented at the Implant EXPO Reception on Sunday. Besides a beautiful certificate, monetary awards were also given, thanks to the generosity of the ICOI and the GNYDM. The first-place award was \$1,500, the second-place award was \$750 and the third-place award was \$500.

If you'd like to present a poster presentation and have it considered in the 2018 GNYDM Poster Competition, please visit the Greater New York Dental Meeting website for updates and upcoming details at www.GNYDM.com. Everyone is welcome to submit a poster even if you are not a dentist!

2016 Winners of the Carl E. Misch Award for Excellence

1st Place	2nd Place	3rd Place
Avrekh Ariyev, B.S.	Selina Somji, B.D.S. & Seongchan Park, D.D.S	Eirini Paroutoglou, D.D.S. & Stephen Chi, D.D.S.

2015 Winners of the Carl E. Misch Award for Excellence

1st Place	2nd Place	3rd Place
Andrew Tawse-Smith, D.D.S.	Isabela R.T.S. Olivio, D.D.S. & Yolanda N.R. Gallardo, D.D.S	Judit Frankovic, Iryna Kondratenko & Helmi Ahmed

2014 Winners of the Carl E. Misch Award for Excellence

1st Place	2nd Place	3rd Place
Meda-Lavinia Negrutiu, D.M.D., Ph.D. & Cosmin Sinescu, D.M.D., Ph.D.	Guei-Hua Hu, D.D.S.	Chih Chieh Liang, D.D.S.

Take the Digital Approach

This is an exciting time of change in our industry, and Align Technology is proud to provide a comprehensive digital solution to help you achieve excellent outcomes and great patient experiences.

Help patients see the potential

Showing patients the current condition of their teeth side by side with possible outcomes using the Invisalign® Outcome Simulator can help them make more informed decisions. These visualizations, along with an explanation of the benefits of tooth alignment on oral and overall health, can boost patient acceptance.

The iTero Element® scanner and Invisalign clear aligners together create an advanced digital platform that can help you:

- Shorten treatment times
- Remove less tooth structure
- Improve outcomes compared to restoration alone
- Increase referrals because of more aesthetic outcomes

Case study: making room for restoration

See for yourself how aligning teeth with Invisalign clear aligners prior to restoration can help deliver a beautiful smile.

Dr. Cristina Viyuela treated a 28-year-old male whose chief concern was to improve the aesthetics of his smile. The patient presented in functional Class II (Div 1) occlusion with peg lateral incisors, deep bite, and interincisal diastema. Dr. Viyuela's goals were to maintain the Class II relationship, align and coordinate arches, and close the diastema.

The orthodontic treatment created a small amount of space to accommodate composite veneers and complete the restoration. This restorative treatment was finished in less than 6 months and exceeded the patient's expectations.

From simple alignments to complex restorative cases, use the proven digital dental solution of the iTero Element scanner and Invisalign clear aligners to help visualize, diagnose, educate, align, preserve, and restore.

Visit booth #5204 to learn more about the benefits of pairing Invisalign treatment and the iTero Element scanner for your restorative cases.

FREE 5 MINUTE HEARING SCREENING MOBILE VAN

Time: 10:00 a.m. - 4:30 p.m.
Location Exhibit Floor Booth 6209

Dentists, hygienists and assistants are among professionals at risk for hearing loss due to work-place conditions. A high frequency hearing loss due to noise can occur gradually without being apparent. A ringing or buzzing in the ears is often the first sign of this noise induced hearing loss. With your busy schedule this hearing screening provides a quick convenient way to keep up with your health needs.

Protect your hearing and protect your health! Come by and have your hearing screened.

The Center for Hearing and Communication is the oldest not-for-profit, out-of-hospital hearing rehabilitation facility in the United States, serving adults, children and infants each year. If you miss the screenings at the Dental Convention, the Center offers free hearing screening at their headquarters 50 Broadway, 6th floor, New York City by calling (917) 305-7766.

Featured Keynote Speakers

Rick Hansen

Man In Motion | Champion for Accessibility and Inclusion

Rick Hansen is currently CEO of the Rick Hansen Foundation and a passionate advocate for people with disabilities in Canada and around the world. As well as being a celebrated Paralympic athlete, he is best known for the Man In Motion World Tour, his epic two-year wheelchair tour around the globe. Since the completion of the tour in 1987, Rick has dedicated his life to creating a world that is accessible and inclusive for all. In addition to leading a team of passionate difference makers at the Rick Hansen Foundation, he provides support to people with disabilities, spreads hope and inspiration through public speaking engagements and advises leaders on issues such as accessibility and inclusivity.

Jim Carroll

Futurist, Trends, and Innovation Expert

Jim Carroll is widely acknowledged as one of the world's leading global futurists on trends and innovation. Possessing a massive global blue-chip client list, he helps to transform growth-oriented organizations into high-velocity innovation heroes. He was named by Businessweek magazine as a leading source for innovation and creativity insight, while his observations are frequently covered in Fortune magazine. Praised by clients, like the Disney World Corporation, he is guaranteed to help you start preparing for tomorrow, today. Jim is an author, columnist, media commentator, and consultant, whose focus is on linking future trends to innovation and creativity. Jim's books include Ready, Set, Done: How to Innovate When Faster Is the New Fast, and What I Learned From Frogs In Texas: Saving Your Skin with Forward Thinking Innovation. In the media, he has appeared as an innovation expert on CNBC, and shared his insights with ABC News, INC.

STOP Neck Pain

with Ergonomic Loupes

- Patented ergonomic loupe designs allow clinicians to stay upright in a neutral, ergonomic posture, avoiding injury
- Maximum ergonomics at all magnifications (2.5x to 8.0x)

Pictured: Micro 250 Loupes on Oakley frames. Lightweight with generous field.

SurgiTel[®]
1-800-959-0153 www.SurgiTel.com

**Vision & Ergonomics
at Work**

Up to 92.3% of clinicians report having working pain. Of those, the majority reported cervical spine pain, musculoskeletal fatigue, and vertebral disc injury.* Injuries like these can easily become chronic, and may even need surgical intervention to rectify.

SurgiTel loupes are designed to accommodate the widest range of declination angles to provide each clinician with their best ergonomics and **STOP neck pain.**

*Chitnis, Deepak. "Operating with Pain: Surgeon Workplace Injury Underrecognized." ACS Surgery News 12.4 (2016): 1+. Print.

"I feel that SurgiTel is way ahead of the game compared to their competitors in ergonomic features. At different times in the past 3 years I have wondered if I would have to change careers due to too much pain. Thanks to SurgiTel I no longer have to worry."

Darryl Hatchett, DDS

"If the equipment doesn't work for the clinician, the clinician will most certainly work for their equipment! Sadly, most clinicians do work for their equipment."

Lance Rucker, DDS, AB, BScD

**STOP Neck Pain at
Booth #2200**
