Tri Auto ZX2

NEW! Breakthrough Technology for Canal Treatment

Introducing Tri Auto ZX2, a cordless endodontic handpiece with a built-in apex locator. This unit simplifies procedures while protecting the patient with innovative safety features.

- Cordless motor with built-in apex locator
- Achieve apical patency and create glide paths significantly faster with Optimum Glide Path (OGP) function
- Responsive – allows subtle and delicate manipulation of the file
- Optimum Torque Release (OTR) technology reduces the possibility of file separation and breakage
- Offers safe and efficient method for canal shaping
- Limited time, 30-day money back guarantee

\$100 Rebate with Purchase

Offer expires 12/31/18, details at Booth #4615.

OTR Function
(Optimum Torque Release)
Safer & Efficient Canal Shaping

OGP Function
(Optimum Glide Path)

*Free clock with Tri Auto ZX2 trial. DENTISTS ONLY. While supplies last November 25 - 28, 2018. No purchase necessary. Gifts may be subject to reporting requirements for the Physician Payments Sunshine Act.

WELCOME (CONT.)

THE 2018 LINEUP OF SPECIALTY PROGRAMS & EVENTS!

- **3D Printing & Digital Dentistry Conference: New for 2018!** The 3D and Digital extravaganza will include educational programs that will explain and demonstrate 3D Printing, CT Scanning, Advanced technologies and other innovations in Digital Dentistry. Whether you are currently using this technology or thinking about incorporating it in the future, this 4 day symposium is a must for all dental professionals. Offered Sunday-Wednesday; see page 18 for course listing.
- **Two-Day Public Health Symposium: New for 2018!** This unique panel of healthcare professionals discusses strategies and activities of oral health programs including state and national goals for reducing dental diseases, insurance, volunteer care and much more! Offered Tuesday and Wednesday; see page 17 for details.
- **The 2nd Annual Pediatric Dentistry Summit:** This program, co-sponsored by the American Academy of Pediatric Dentistry, will benefit both pediatric dentists and general dentists. Learn new techniques and refresh your approach to the treatment of your young patients. Programs offered Sunday – Tuesday; see page 21 for course listing.
- **World Implant EXPO:** The Greater New York Dental Meeting continues its Annual World Implant Congress to facilitate the education of dental professionals to all aspects of Implantology. The exhibit floor will be expanded to include the sale of implants, associated materials and technology solutions. Workshops, Seminars, and Essays are offered Daily; see page 7 for course listing.
- **Global Orthodontic Conference** will include companies involved with orthodontic products, technology, materials, and equipment as well as incorporate a full educational program for specialists and general practitioners focused on orthodontics. Sunday – Wednesday; see page 7 for course listing.
- **Standard Proficiency Laser Seminar & Workshop** is a 6-hour didactic laser competency course. Learn a comprehensive overview and a basic understanding of the Diode dental laser. This program satisfies the Academy of Laser Dentistry's basic competency course. Attendees demonstrate clinical simulation on pig jaws and must pass a written exam to achieve the Academy of Laser Dentistry Basic Competency. Offered Tuesday.
- **Sleep Apnea Symposium:** In partnership with Dental Sleep Practice (MedMark, LLC) this 5 Day Symposium will present the latest research and awareness in Dental Sleep Medicine by the top educators in sleep dentistry. Learn how to establish Dental Sleep Medicine protocols in your practice, identify patients at risk, integrate medical practice systems and treat patients successfully. See page 22 for course listing.
- **Dental Laboratory Education** presented for the Laboratory Technician with specialized education, demonstrations, digital dentistry and technology for technicians and dentists' in

a side-by-side integrated, hands-on experience. Learn about 3D printing, implant overdentures, case design for removable prosthetics and so much more! See page 18 for course listing.

- **Pre-Dental Conference** is offered today from 9:45am – 12:45pm & 2pm – 5pm. The Pre-Dental Conference offers a unique networking experience between prospective Dental Students and Admissions' personnel. The GNYDM offers services to help students discover available opportunities offered through available Dental programs and explain the admissions' process including the interview process, applications and financial aid. If you know anyone interested in starting a career in Dentistry, this is the program they should attend. See page 17 for more details.
- **New Dentist's Program** focuses on startup strategies and pathways to practice ownership for the new dentist. The program is offered on Saturday and Sunday. The Specialized New Dentist Program is designed for those who graduated in the last 10 years. See page 15 for more details.
- **Education for Hygienists & Dental Assistants** on the Exhibit Floor each day of the Meeting including hot topics: managing acute dental pain, opioid analgesics, documenting, whitening and much more! See page 21 for course listing.
- **Social Media Pavilion** with Seminars and Workshops. Learn how to create a Buzz about your dental office, increase followers and your digital footprint. Create your brand through social media and finally, discover how to keep patients coming back by year after year with an updated website.
- **Botox, Dysport and Dermal Filler Seminars and Demonstrations:** These unique and most popular hands-on workshops/demonstrations introduce procedures on actual patients to teach Dentists' skills on how to use Botox/Dysport and Dermal Fillers in their practices: offered Sunday – Wednesday.
- **International Programs** offering educational courses in French, Portuguese, Russian and Spanish. There is a designated workshop room for live Portuguese translation for all morning and afternoon sessions. See page 22 for course listing.
- **Invisalign EXPO:** 4 Days of Invisalign programming is offered for the entire dental team; learn how to incorporate Invisalign into your practice. Sunday – Wednesday.
- **Free "Live" Dentistry Arena** is a revolutionary concept of Live Patient Demonstrations performed in an operatory built on a stage on the exhibit floor. This arena seats over 550 people with a ground breaking audio visual system to blow you away! Attendees have the chance to earn up to 24 hours of FREE CE credits. Seating is first-come, first-serve. See page 7 for course listing.

In addition, earn FREE certified education credits by walking through the 4 day exhibit floor or attending the scientific poster session today from 10am – 2pm. Attendees can also learn about Hospital Residency Programs throughout the Northeast by attending the Residency Fair from 9:30am – 12pm.

THE LOUPE MAGNIFICATION I WANTED WITHOUT NECK-PAIN

AFTER USING 2.5X LOUPES IN DENTAL SCHOOL AND EARLY IN MY PRACTICE (AROUND 7 YEARS TOTAL), I DECIDED TO LOOK INTO HIGHER MAGNIFICATION. AFTER TRYING OUT DRASCOPTIC'S 4.8X LOUPES I WAS SOLD ON THE HIGHER MAGNIFICATION. I RECOGNIZED THESE LOUPES WERE HEAVIER BUT I DID NOT TAKE INTO ACCOUNT THE EFFECTS IT WOULD HAVE ON ME IN THE FUTURE.

I used these 4.8x loupes for the following eight years. In the last three years, I developed increasing pain in my anterior neck and shoulder.

I saw a physical therapist for the last two years, with an appointment every two weeks. The exercises would help me through the weekends, but once I was back at work with my loupes on, the pain would start all over again.

Around that time I took a week-long vacation in Playa del Carmen, Mexico with my wife and two children. I had constant neck and shoulder pain during the entire trip. Sad to say, this is the first thing that comes to my mind about that vacation. I could not quite enjoy the trip as much as my wife and kids were able to.

Searching on the Dentaltown forums I came across a dentist who posted he had a set of SurgiTel flip-up loupes that were very light and the declination angle could be adjusted to very steep angles. I looked up SurgiTel online and got my local representative's name and number. My rep was Tim Faircloth.

I spoke with Tim about my situation with my current loupes, my pain, and what I had read on the Dentaltown forums. He told me that he

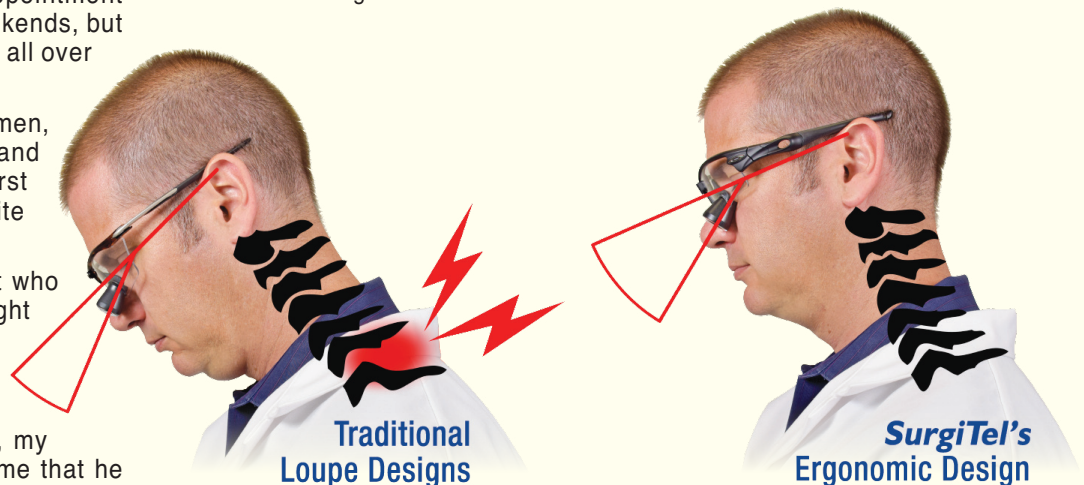

could definitely help me. He took pictures of my posture with my old loupes and with the SurgiTel loupes. I could easily see how much better my posture was with the SurgiTels. Tim was very helpful throughout the entire process. His expertise with the different models of loupes and frames and knowledge in all the areas where I had questions was amazing.

After the first few days, I finalized the adjustment of my loupes and my posture. It only took about a week for me to notice a decrease in the pain in my anterior neck and shoulder.

I am very happy with my new SurgiTel FLM loupes. The pain in my neck and shoulder has reduced tremendously and is continuing to get better. I feel that SurgiTel is way ahead of the game compared to their competitors in ergonomic features. At different times in the past 3 years, I have wondered if I would have to change careers due to too much pain. Thanks to SurgiTel I no longer have to worry.

Darryl L Hatchett, DDS
Denver, North Carolina

A graduate of the UNC-Chapel Hill School of Dentistry. He has been in private practice doing general dentistry for 16 years. Dr. Hatchett lives and works in the Denver area along with his wife and two children.

GENERAL REGISTRATION

Jacob K. Javits Convention Center Upper Level - Crystal Palace

Sunday, November 25 through Tuesday, November 27 8:00 A.M. to 5:30 P.M.

Wednesday, November 28 8:00 A.M. to 5:00 P.M.

EXHIBIT FLOOR HOURS - TECHNICAL AND SCIENTIFIC

Sunday, November 25 9:30 A.M. to 5:30 P.M.

Monday, November 26 9:30 A.M. to 5:30 P.M.

Tuesday, November 27 9:30 A.M. to 5:30 P.M.

Wednesday, November 28 9:30 A.M. to 5:00 P.M.

MARK YOUR CALENDAR!

GREATER NEW YORK DENTAL MEETING

2019:
NOVEMBER 29TH - DECEMBER 4TH

2020:
NOVEMBER 27TH - DECEMBER 2ND

2021:
NOVEMBER 26TH - DECEMBER 1ST

Connect with more patients by connecting with Align®.

You've built a great practice. Let us bring more patients to it.

Visit Align Technology at GNYDM booth #5204.

Come see the innovative new way we're helping you connect to more patients – the Invisalign® Experience. We're bringing a replica of an actual Invisalign Experience location to the tradeshow floor so you can see how we're turning consumers into patients and driving them directly to your practice.

The Invisalign Experience features 3D scanning, allowing consumers to see what their ideal smile would look like in a matter of minutes. Friendly, well-trained employees then help consumers explore treatment and financing options before being directed to your practice for a consultation and to begin treatment if desired. Come see the Invisalign Experience for yourself and learn how you can grow your practice and connect with more patients.

Connect with us at booth #5204!

U.S. DEPARTMENT OF COMMERCE SUPPORTS U.S. COMPANIES' INTERNATIONAL SALES AT GNYDM

INTERNATIONAL
T R A D E
ADMINISTRATION

The U.S. Department of Commerce (DOC) is helping U.S. companies realize their export potential at GNYDM by connecting them with potential clients and partners attending from foreign markets, and providing one-on-one export counseling by Commercial Specialists based overseas. In addition, the DOC is offering a seminar where an industry analyst will provide overviews of selective markets.

The DOC services are provided under the International Buyer Program (IBP), that the GNYDM is proud to participate in again this year. The IBP is a government/industry initiative that brings thousands of international buyers to leading industry trade shows. Each year, the IBP results in approximately \$1 billion dollars in new business for U.S. companies, and increased international attendance for participating U.S. trade show organizers.

Through the DOC's network of Embassies and Commercial Posts in over 70 countries, as well as through State Department partner posts, the IBP attracts qualified buyers to visit select U.S. trade shows, essentially bringing

the international marketplace to the U.S. suppliers' backyard. For GNYDM 2018 Commercial Specialists recruited qualified buyers from Argentina, Brazil, Canada, Colombia, The Dominican Republic, Ecuador, Iceland, Mexico, Peru, Saudi Arabia and more countries around the world.

At GNYDM 2018, the IBP team is offering the following complimentary services to U.S. exhibitors throughout the show, at the International Business Center adjacent to the International Registration:

- **BUSINESS TO BUSINESS MATCHMAKING:** The IBP will help U.S. exhibitors identify and meet with prospective international partners, agents, distributors, and customers. Come by to speak with one of the IBP representatives to let them know that you would like to meet potential international customers during the show. Take advantage of this excellent opportunity to reach new overseas partners for your business.
- **SHOWTIME:** This service allows U.S. exhibitors to meet one-on-one with global U.S. Embassy-based Dental Equipment Industry Specialists at GNYDM 2018. As experts in the dental equipment industry in their own home markets, Industry Specialists will provide immediate, first-hand feedback regarding opportunities or challenges for your product(s) in their markets, as well as advising you, the U.S. supplier, on the buyer delegates they have escorted to the show that may be a good match for your products. Industry Specialists from Brazil, Bolivia, Iceland, Mexico, Peru and more countries are here for you.
- **WANT MORE INFORMATION** on key export markets for U.S. manufacturers of dental supplies and equipment? Attend the Export Seminar coordinated by the International Buyer program, in the Exhibitor Lounge, Fourth Floor, A Terrace, Tuesday, November 27, 8:30-9:30 AM. Topics will include why U.S. dental equipment and materials manufacturers should export, and other international expertise from Commercial Service officers located overseas. A Continental breakfast will be generously provided by GNYDM.

A FREE NEW AND UNIQUE HEALTH SCREENING COLLABORATION

Sponsored by the Greater New York Dental Meeting (GNYDM) & the New York State Academy of General Dentistry (NYSAGD)

**GREATER
NY
DENTAL MEETING**

The Greater New York Dental Meeting and the New York State Academy of General Dentistry will be offering the attendees a number of health screenings during the GNYDM's annual session.

SUNDAY, NOVEMBER 25 from 10:30am - 5:00pm
MONDAY, NOVEMBER 26 from 2:00pm - 5:00pm
Exhibit Floor Aisle 6200

The following health screenings will be performed:

Blood Pressure

Oral Cancer

Caries

Hearing

Eye

Diabetes Risk Assessment

Take your show on the road with the GNYDM 2018 Mobile APP. GNYDM 2018 mobile APP places all the event information at your fingertips:

Advance features on the iPhone and Android native app provide you with a truly personalized experience.

- Available on the **App Store**
- Available on **Google play**
- Available on **BlackBerry and other Smartphones**

INTERNATIONAL BUSINESS DESIRED: Direct sales, Foreign Agents/Distributors

FOR THOSE WHO WANT TO IMPROVE THE HEALTH OF THEIR PATIENTS AND SUCCEED IN THE CHANGING HEALTHCARE SYSTEM

Be a part of the initial "Essential Total Health For All Health Professionals" program at the GNYDM. While it is imperative that you practice the highest quality of patient centered care, you must also better understand the critical issues facing health professionals as they strive to succeed and excel.

The two days of exceptional panels bring together thought leaders, educators, and respected providers to discuss and share the challenges facing all of you that practice, manage and educate within the healthcare space whether private sector or community health clinic based.

The integration of oral health into primary care along with the growing needs of our most vulnerable populations in an era of innovative technology and value based care payment are challenges that you must understand to succeed. These will be directly addressed during the two day public health symposium.

I want to share some of the important "Total Health" issues facing oral health providers and the administrators that help guide the appropriate delivery of needed services.

The two panels on Tuesday bring together some of the most respected leaders in Dentistry to share their work and thoughts about the integration of Value Based healthcare payments/reimbursements. Areas that will be addressed include the changing system, i.e. insurers, and providers, and the changing population needing oral health care.

The rapidly growing senior population adds new and complex issues to an already stressed system. Approximately 58 million people rely on the Medicare program – and only about one-third of them have any coverage for oral health care. The Medicare statute currently excludes coverage for most oral health care. Nearly three out of five seniors, and more than three-fourths of low-income seniors, do not visit a dentist during a typical year. One in five seniors have untreated tooth decay. One in five seniors, and two out of five low-income seniors, have complete tooth loss.

Its tragic that in a time when new diagnostic and treatment options are available for the management of Cancer that oral cancer continues to be a prevalent issue for the dental profession. There will be an expected 51,000 new cases of oral cancer in the U.S. this year with over 20% of these resulting in related deaths. This is unacceptable and needs to be addressed by all of us. Simple oral cancer screenings can be done in minutes with early detection a critical step in preventing the tragic effects of more advanced treatment. Issues related to reimbursement, scope of practice, available new technology and practice

interest and success in providing preventive services will be discussed.

Another area of growing concern is the oral health care for those at risk, people with disabilities and those with intellectual and developmental disabilities. Many oral health care providers do not feel well enough trained or that their clinical space is not designed to manage these patients. There are an estimated fifty-six million Americans that are disabled and in need of oral health care! Those with intellectual and developmental disabilities such as those on the autism spectrum require a level of understanding and sensitivity that is clearly attainable and tremendously rewarding. It is important that all of us understand the need to provide quality, accessible care while developing the skills and confidence to manage these patients in a welcoming and sensitive manner. We are fortunate that the Tuesday afternoon panel brings together an internationally respected group of expert physicians, dentists, disability leaders and innovative educators to assist you in better understanding the needs of these patients with disabilities and how you can be better equipped to integrate these very special patients into your clinical environment.

The expansion of the dental team has been a discussion and process that has garnered quite a bit of controversy over the past few years. This is an argument that Medicine faced when the idea of adding Physician Assistants (PAs) to their team surfaced years ago. PAs have become an integral part of medical practice. We saw this within dentistry back in the 1960s when there was opposition to this new group of dental provider known as the Dental Hygienist. Can you even imagine dentistry being practiced without Dental Hygienists as part of the team? I can't.

The development of Tele-health technology has led to the "Virtual Dental Home". This has opened new pathways to address the significant issue of a patient's inability to travel to a dental office – particularly in rural communities and the frail elderly. Tele dentistry also provides a meaningful screening that can be done by an RDH affiliated with a dental practice so that preventive, noninvasive procedures can be delivered at reduced cost and with greater efficiency. This technology has provided the opportunity for dental providers to collaborate with physicians to provide better "whole person" health care. The panel on Wednesday afternoon literally brings together the national leaders of this effort who will present and discuss how they do it and how you can explore opportunities to bring Tele dentistry and the expanded role for RDHs into your practice.

Attendance at these panels is free to dental residents and dental students. Please take advantage of this very special opportunity; Registration is still open!

Jack Dillenberg, D.D.S., M.P.H.
Public Health Panel. Mesa, AZ
Dean Emeritus, A.T. Still University's Arizona School of Dentistry
Board Chairman, Center for Oral Health

Rethink Your Hand Files

Simplify Root Canal Preparation

General dentists and endodontists are telling us the most difficult and time consuming part of the endodontic procedure is starting the root canal preparation.

This includes finding all canals, negotiating to the terminus, and creating a smooth glide path for rotary file safety. Venta Endo has a simple and effective solution for this tedious task of beginning canal preparation. By rethinking the way you hold and manipulate the initial file you change a difficult task into an easy one with the EndoHandle.

Steps to Simplify

First, don't change the way you access the pulp chamber. Continue as you normally do to debride the pulp chamber and locate the canal orifices. After access preparation place any small #6 or #8 endodontic file into the unique locking chamber of the EndoHandle. This new pen grasp grip on the file keeps your fingers out of the way. It gives you more control and allows you a clear view of the orifice to easily find the canal. Once you have located the canal simply keep filing. The EndoHandle's tactile sensitivity allows you to control the file and penetrate tortuous canals to the terminus. Within 30 to 60 seconds of basic up/down filing the EndoHandle produces a smooth, tissue free glide path for safe rotary instrumentation. This simple technique completely eliminates the difficult and frustrating part of beginning root canal preparation.

Solving Calcified Canals

Another common frustration in endodontics is calcified canals. Venta Endo's new CalciFile, used exclusively in the EndoHandle, is

specifically designed for these tight spaces. The CalciFile is approximately four times stiffer than a standard #6 K-Type file. This allows for greater vertical pressure to be used without file buckling. Unlike standard K-Type files, the CalciFile has a smooth non-cutting surface with a gentle curved flute. This permits the file to slide down the canal without snagging on rough canal walls. The new CalciFile design directs all vertical filing forces to the tip of the file to penetrate calcified canals.

A university study was recently completed on the CalciFile's ability to reach canal patency. Over 100 canals in 55 multi-rooted extracted teeth, from the endodontic pre-clinic, were used. The CalciFile obtained 76% canal patency with less than 15 seconds of filing. When the CalciFile was used in combination with the #6 K-Type file, 91% of the canals obtained patency. Results show that the CalciFile's unique design establishes patency in less time and with less effort.

Rethink Your Hand Files at Booth #2714

New Dentist Programs

Sunday, November 25th

Infusing an Entrepreneurial Mindset into the Dental Practice/ the New Dentist and the Business of Dentistry

9am - 12pm

3 Credits

Tuition: \$40.00

Course Code: 3730

New Dentists: Time to Open My Practice...Now What?

ContactEZ Booth(s): 3424

217 SE 136th Avenue - Suite 105 Vancouver, WA 28684
Phone: (360) 694-1000 Website: www.contactez.com
Product: SupraDisc, Safe-Edged Diamond Disc

Description: Enjoy safe, effective, and stress-free interproximal reduction with the new, innovative SupraDisc. While traditional diamond discs can carve harmful ledges or gouges into enamel surfaces, SupraDisc uses a unique, non-abrasive edge to make this a thing of the past. Use SupraDisc to improve patient experiences and bring a unique value to your office.

ContactEZ Booth(s): 3424

217 SE 136th Avenue - Suite 105 Vancouver, WA 28684
Phone: (360) 394-1000 Website: www.contactez.com
Product: IPR Plus

Description: Based on years of feedback and suggestions from customers, ContactEZ has developed the latest expansion to the IPR Strip System—IPR Plus. The four new strips that comprise IPR Plus include measurements that increase incrementally from 0.35 mm to 0.50 mm. Each of the new IPR Plus strips comes with its specifications engraved right on the handle; listing its thickness and diamond coating. IPR Plus also contains the previously-named "Optional Strips" as well. In the near future, the improved grip and specifications on each handle will be making their way to all 8 strips under the umbrella of IPR Plus

GENERAL PRACTICE RESIDENCY FAIR

Course: 3830
Tuition **FREE**

9:30 – 12:00
1 CEU
Crystal Palace Rotunda
Mezzanine Level

The **General Practice Residency Fair** provides dental students an opportunity to gather information regarding general practice residency and advanced education in general dentistry programs in an informal atmosphere.

Representatives from approximately 65 hospital dental residencies are present to discuss the content and nature of their programs, patient populations and treatment needs, as well as attending and resident staff and requirements. The **General Practice Residency Fair** enables students to review various residency programs without the logistical problems of individual site visits.

This is the 33rd annual **General Practice Residency Fair**, which is a joint venture of the American Association of Hospital Dentists, the Greater New York Dental Meeting and dental schools throughout New York, New Jersey, Pennsylvania and Connecticut.

The Greater New York Dental Meeting wishes to express its appreciation to
Dr. Burton Wasserman
&
Dr. Scott W. Podell
for their outstanding leadership in coordinating this function.

ORAL HEALTH CARE IN THE U.S.: FOR WHOM, BY WHOM, AND WHO PAYS? (IS THERE A PATHWAY TO INCLUSION OF ORAL CARE IN MEDICARE?) Oral healthcare in the United States has continued to be a challenge for patients, providers, insurers and policy makers. This extraordinary panel helps you to better understand how to thrive in this ever changing system. By participating in this program, you will better understand the issues and leave with a clear understanding of how to be successful in navigating the system while providing quality care for your patients.	INTEGRATION OF ORAL HEALTH INTO AN EMERGING VALUE BASED HEALTHCARE SYSTEM The traditional fee for service payment system for healthcare services is fading away. We have already seen this occur in various medical settings throughout the country. The change is slowly shifting the dental payment system. Dental providers have to better understand and adapt to these changes. National experts help you to better understand these changes and how to begin the transformation so you can be prepared.	HOW GENERAL DENTISTS CAN IMPROVE THE ORAL HEALTH OF THE DISABLED AND THOSE AT RISK (MEDICALLY COMPLEX AND ELDERLY) There are over 57 million Americans with disabilities. The oral healthcare system, and its providers, cannot rely on specialists and hospitals to treat these individuals in need of on-going, high quality dental care. General dentists attending this session will better understand how they can be effective, successful and emotionally satisfied in treating these at risk individuals.	WILL EXPANDING THE HEALTH TEAM TO INCLUDE DENTAL HYGIENISTS IN A TELE-HEALTH ENVIRONMENT IMPROVE ACCESS TO CARE, IMPROVE THE OVERALL HEALTH OF PATIENTS AND REDUCE COSTS? Dentistry has been slow to adopt an expansion of the dental team. New models have emerged in a number of states. One model that incorporates well trained dental hygienists and innovative technology – tele-health and virtual dental offices – offers a solution that many can embrace. See how this model can increase the dental team's effectiveness, and bottom line while increasing access to care.

Invisalign® Go—minimal hands-on time and great value.

Invisalign® Go digital system—designed for the way dentists work. Expand your offerings with a new tooth alignment system that fits with your dental practice. From its digital scanning technology to simple, streamlined workflows--Invisalign Go is ideal for dentists to add tooth movement to their comprehensive patient care.

INVISALIGN GO

Every aspect of Invisalign Go treatment reflects the needs of busy dentists like you. It helps you connect with your patients by real time assessing case complexity, and sharing impactful visuals such as multiple treatment plans to increase treatment acceptance. Now when restorative treatments require prior teeth alignment, you'll be able to confidently treat from start to finish.

EASY TO USE FROM END TO END

Invisalign Go treatment's clinical protocols are evidence based for enhanced predictable tooth movement, and its automated case assessments leverage over five million Invisalign patients. You can feel confident to offer your patients the right treatment for their case with:

- Automated chairside case assessments in just minutes using the iTero intraoral scanner or Invisalign Photo Uploader
- A simplified prescription form
- Multiple treatment plans that empower you to modify treatment plan real-time with efficiency
- Up to 20 stages of aligners and second pre-molar to second pre-molar movement, designed to treat an array of pre-restorative alignment and mild to moderate malocclusion cases.

A BETTER CHAIRSIDE EXPERIENCE

Invisalign Go treatment offers a compelling digital chairside experience with iTero scanning and Invisalign Photo Uploader features that provide more visualization capabilities. It guides you confidently through identifying, planning, and treating a range of cases with tools tailored for your workflow.

- The Invisalign Photo Uploader app allows you to easily take patient photos using your iPhone® or mobile device
- The Case Assessment Tool helps instantly determine whether a case can be treated within Invisalign Go treatment's clinical protocols.
- The iTero Element is the only intraoral scanner seamlessly integrated for a complete and easy Invisalign Go workflow, including chairside outcome simulation.

"THE INVISALIGN GO SYSTEM HAS BEEN A GAME CHANGER IN MY PRACTICE."
 —Dr. Betsy Bakeman, Grand Rapids, MI

COME EXPERIENCE

Invisalign Go® at Booth #5204

See for yourself how seamlessly Invisalign Go fits into your practice workflow with a hands-on demo for you and your team. From its competitive price point to the ease of use in your practice, you'll see why Invisalign Go is an integral addition to your offerings.

BUY A BUNDLE AND SAVE WITH GNYDM'S NEW CE PASSPORT

Obtain more CE Credits and save money by purchasing one of our NEW Education Bundles.

The GNYDM CE Passport Bundle includes Seminar and Essay courses.

When purchasing a bundle, attendees can register for as many Seminars and Essay courses as they want during all six days of the show.

Registration for all courses is required.

\$495.00

entitles an individual to take unlimited* seminars and essays

\$795.00

entitles a dentist and their entire staff to take unlimited* seminars and essays

*Excludes Workshops, Botox & Fillers, Sleep Symposium and Invisalign

ASM19 Annual Spring Meeting

May 9-11
Metro Toronto Convention Centre
South Building

ASM19 — YOUR LEARNING DESTINATION

Some Outstanding Speakers to Look Forward To:

Ken Hargreaves
Successful Management of Acute Dental Pain

David Clark
Better, Faster, Prettier, Stronger Composite Dentistry

Paulo Malo
State-of-the-Art Rehabilitation For Total Edentulism:
The All-on-4® Treatment Concept

John Molinari
Infection Control in the Dental Office:
It's Everyone's Responsibility

Featured Keynote Speakers

Mary Walsh — Acclaimed Comedian
Mary Walsh is best known for her multi-Gemini-award-winning work that showcases her dynamic range of hilarious characters.

Timothy Caulfield — Professor Health Law and Science Policy, University of Alberta
Professor Timothy Caulfield debunks myths and assumptions about innovation in the health sector.

NEW for 2019! ALL COURSES ARE TICKETED.

Category 2 and 3 lectures are included in your general registration fee. Register in advance for free tickets to reserve your spot. Online registration opens in January 9, 2019.

The Preliminary Guide will be available online in January at asm.oda.ca.

J. MORITA TRI AUTO ZX2 = EFFICIENCY IN MOTION

Written by Aaron R. Welk, D.M.D. Diplomate, American Board of Endodontics

The title of this article kind of looks like a math equation. Although not truly an equation, using the new J. Morita Tri Auto ZX2 is a formula for success in today's rotary endodontic world.

There are many benefits of using a cordless handpiece. Early in my career I found it restrictive to position the handpiece when it was tethered to a base motor. One example is gaining straight line access to the distobuccal canal of a maxillary left molar. With a cordless electric handpiece, a simple inversion of the unit allows for easy access to the canal and file freedom. The cordless feature means you can adjust to all patient sizes and chair positions required for endodontic treatment.

As I fast forward 16 years in private practice as an endodontist, I have been using a cordless electric handpiece ever since. With the introduction of the Tri Auto ZX2, this latest generation cordless handpiece is making an exponential jump from previous cordless handpieces on the market.

There are five (5) different operating modes for canal shaping and measurement. There are eight (8) programmable memory settings that can be set in varying combinations of motor operation (speed, torque and automation level). The handpiece is preprogrammed for different stages of canal treatment. As the operator gets comfortable with each mode, the settings can be customized as needed.

With adjustable rotation speeds from 100-1000 rpm, the Tri Auto ZX2 can accommodate an assortment of rotary instruments from files to gates glidden and pesso burs. The optimized glide path (OGP) function creates watch-winding and balanced force motions in either 90 -120 , 180 - 270 , or 240 -330 arcs. This forward and reverse rotation allows a clinician to negotiate a canal path as if using a hand file.

The Tri Auto ZX2 is whisper quiet to use. The optimized torque reverse (OTR) function used during canal shaping reverses smoothly upon increased torque in the canal. When the rotating file exceeds to set torque limit, the file automatically starts alternating between forward and 90 reverse rotation. The motor produces a soft engine sound that is non-threatening to anxious patients.

Integrated rechargeable batteries also serve as a counter weight, making the handpiece well balanced. This leads to operator comfort and less fatigue when holding the handpiece. The battery charge can easily handle 6 to 8 cases a day for a full week without needing a recharge. Another benefit is the ease of mobility between operatories in the office. This portability is useful for the freelance clinician who travels to various offices.

Unlike other handpieces on the market, the Tri Auto ZX2 is multifunctional. In addition to rotary instrumentation, it functions as a stand-alone apex locator. But, it gets better. The Tri Auto ZX2 has varying levels of automation that can be set for instrumentation in a root canal.

When used in manual mode, the operator can start and stop the rotary file with the push button. Connecting the probe cord to the handpiece while using a rotary file allows automation of the procedure.

The handpiece can be set to Auto Start when the file approaches the canal and Auto Stop when the file is removed from the canal. The handpiece can also be set to stop when the file reaches the minor diameter of the canal apex in Apical Action (OAS) mode.

The J. Morita Tri Auto ZX2 will enhance the treatment experience and efficiency of any clinician regardless of practice level. When selecting your next endodontic handpiece, let the Tri Auto ZX2 guide you to the next level as it has for me.

**Vision & Ergonomics
at Work**

*Chitnis, Deepak. "Operating with Pain: Surgeon Workplace Injury Underrecognized." ACS Surgery News 12.4 (2016): 1+. Print.

"I feel that SurgiTel is way ahead of the game compared to their competitors in ergonomic features. At different times in the past 3 years I have wondered if I would have to change careers due to too much pain. Thanks to SurgiTel I no longer have to worry."

Darryl Hatchett, DDS

"If the equipment doesn't work for the clinician, the clinician will most certainly work for their equipment! Sadly, most clinicians do work for their equipment."

Lance Rucker, DDS, AB, BScD

Up to 92.3% of clinicians report having working pain. Of those, the majority reported cervical spine pain, musculoskeletal fatigue, and vertebral disc injury.* Injuries like these can easily become chronic, and may even need surgical intervention to rectify.

SurgiTel loupes are designed to accommodate the widest range of declination angles to provide each clinician with their best ergonomics and **STOP neck pain**.
