New York meeting grows in global stature

by Dental Tribune America

NEW YORK, NY, USA: Thanks to the Live Dentistry Arena and ADA CERP-accredited C.E. credits available at the Dental Tribune Study Club (DTSC) Symposia, the Greater New York Dental Meeting (GNYDM) is solidifying its standing as the largest dental congress and health-care meeting in the United States. In 2011, the GNYDM registered 53,789 attendees from all 50 states and 127 countries.

The GNYDM offers a choice of more than 300 educational courses, including full-day and half-day seminars, essays, hands-on workshops and a “live” 430-seat high-tech patient demonstration area.

Attendees are urged to not only partake in the many educational courses but also to visit the meeting’s evolving exhibit floor with more than 1,500 exhibit booths and more than 600 exhibiting companies.

There is a never a pre-registration fee to attend the Greater New York Dental Meeting.

The live dentistry arena is always a major hit, with standing-room-only in the ever-expanding arena. This revolutionary concept of treating patients with new materials and high-tech applications takes place in the educational hall right on the exhibit floor, with no tuition costs to attendees.

The GNYDM has significantly expanded its international program, accommodating 6,656 international visitors from 127 countries in 2011 and offering programs in Spanish, Portuguese, French, Italian and Russian.

With three major airports nearby [Newark Liberty (EWR), Kennedy (JFK) and La Guardia (LGA)] and special discounted hotel rates for those attending the meeting, it is easy for dental professionals to visit New York City during a festive and colorful holiday time of the year.

See all that New York City has to offer during what many believe is its most captivating season. The event runs from Nov. 23 through 28.
